SMARTLINK™
Teacher Station

THE MOBILE INSPIRATION STATION

A bulky teacher's desk sits at the head of the class. Sound a bit old school? Today's smartest learning environments are flexible and interactive—especially with the SmartLink teacher station from The HON Company. Available in two sizes and part of a complete system, the teacher station is a powerful command center that makes it easy to add innovation and inspiration to your lesson plans.

ROOMIER

The teacher station offers a number of advantages over traditional-sized desks. These include: more usable desktop space, more space for interchangeable storage bins and shelves, and extra knee space.

COMPACT

The compact version is ideal for teachers who prefer a smaller desk. It also can be used as a computer station or as workspace for teacher's assistants or volunteers. What's more, the smaller size makes it highly mobile and perfect for laptops.

WIRED

All teacher stations provide design features that keep cables tucked neatly out of the way, as well as easy access to power through a side-panel power cabinet.

MOBILE

Heavy-duty locking casters make it simple to move any teacher station around the classroom or school. Corner bumpers protect from possible damage along the way.

SELECTION

Choose from two top options: The laminate top with a t-mold edge combines a classic look with exceptional durability. Or go a bit more upscale with powder-coated MDF (medium-density fiberboard), which features comfortable ergonomic edges.

COORDINATED

Part of a total system, the teacher station shares the same rounded edges, color palette, and contemporary styling of other SmartLink components.

SURFACE MATERIAL SUMMARY

Component Type	Color & Code
Powder-Coated MDF Tops and Shelves	Muslin (T3) Reflection (T6) Light Gray (Q)
Laminate Tops	Natural Maple (D) Sheer Mesh (A5) Silver Mesh (B9) Harvest (C)
