## Monitor Arms

# PUT STYLE AND FUNCTIONALITY ON DISPLAY

HON monitor arms allow you to free up workspace and effortlessly move your monitor into a variety of positions without the use of manual adjustments. The gas spring technology enables effortless arm adjustment ranging from 13" in height to 21" in extension, and can tilt the monitor up to 55 degrees while swiveling 360 degrees at two points. The arms fold completely back to the post to provide maximum desktop space, and cord management clips help create a less cluttered worksurface. The high-quality aluminum alloy arms and stainless steel posts will withstand years of use, which is guaranteed by the HON Full Lifetime Warranty.

## SUPPORTS THE WAY YOU WORK

- **Dual Screen Mode:**  
H5220 aligns screens horizontally for optimal ergonomic positioning
- **Wire Management:**  
Cables and wires can be routed through the arm and pole base and a support ring for a clean, organized workspace
- **Desk Mounting:**  
Attaches to desk with either desk clamp or grommet mount
