HON

Quotient™

ADAPTABLE FORM.

Finding a common denominator solution to satisfy a variety of needs and users can be challenging, especially with something as personal as a chair. As much as people love their task chair, today's workers are spending less time at their desks and more time collaborating and working throughout a space. This requires seating platforms to support a wider variety of body types and environments. With an ilira®-stretch mesh back for comfort, an advanced seat cushion design, and a stool option for standing-height worksurfaces, Quotient is much more than the sum of its parts.

TWO OPTIONS. LIMITLESS USES.

With both a task chair and task stool option, Quotient is a perfect fit for areas with a variety of worksurface heights. Outfit workstations and conference areas with Quotient chairs, while adding stools to a café table or standing-height collaborative area.

TASK CHAIR

ARMLESS TASK CHAIR

ARMLESS TASK STOOL

The Right Answer For Today And Tomorrow.

Quotient is designed to support a variety of people and spaces for years to come. The seat cushion is made from a high-density molded foam that is engineered to outlast lighter foam materials. The durable five-star base and frame support up to 300 lbs., and the high-quality HON fabrics are stain-resistant and built to withstand daily wear and tear. From the casters to the top of the back, Quotient is covered by the comprehensive HON Full Lifetime Warranty, adding unparalleled confidence of ownership.

WORKSTATION — Quotient provides all the flexibility a space needs, but with the added benefit of all-day comfort. The ilira-stretch mesh back cradles the spine and the high-density foam seat cushion gives workstation warriors the comfort and support needed to stay productive throughout the day.

 ${\tt COLLABORATIVE-Quotient\ is\ designed\ to\ help\ anyone\ quickly\ achieve\ their}$ desired posture, making it ideal for collaborative areas in which workers gather for short periods of time. Quotient stools accommodate the increasingly popular standing-height tables and worksurfaces found in teaming areas.
