IGNITION™
Seating

THE PERFECT FIT

Ready for today. Prepared for tomorrow.

Ignition is flexible enough to handle any day-to-day tasks, as well as accommodate any future need. A combination of human-centered design and full family selection, Ignition has everything you need to outfit your entire space and give everyone the comfort and performance they need. This fully coordinated offering unifies your space with design continuity and gives everyone the functionality they require to perform at a higher level in today's active work environment.

B

C

IT ALL STARTS WITH IGNITION

Ignition's cutting-edge materials and innovative construction not only offer the highest level of comfort, but also support a higher degree of flexibility. Ignition fits any environment, whether it's a welcoming area, café, conference room, workstation or touch down area. Added features such as the Wall Saver leg design help increase the chair's durability, while protecting the surrounding areas.

IGNITION FITS YOU

People come in all shapes and sizes, and so does Ignition. It's designed to comfortably accommodate body types from the 5th to 95th percentile. People also work in different ways, and Ignition supports them all. Whether sitting for extended periods of time or just long enough to grab a latte, Ignition provides a higher level of comfort. And while Ignition is an all-in-one solution, it's definitely not a one-style-fits-all selection. In fact, Ignition allows you mix and match adjustment features, back height, and various options to fit each chair to the user's individual needs.

CUSTOM FIT

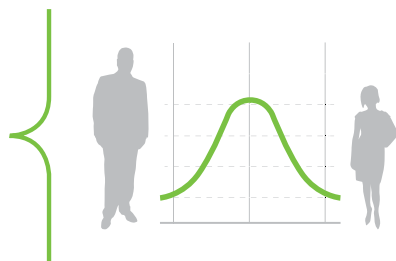

Customize your Ignition with various back-height and seat size options, your choice of upholstered or mesh back, that adjusts to six different vertical positions.

BIG TO SMALL

Ignition's three back sizes, with proportionally scaled seat sizes, accommodate users of all shapes and sizes. The Big and Tall chair supports up to 450 pounds, while the bariatric chair comfortably distributes weight up to 500 pounds.

ARM OPTIONS

Personalize your comfort and style with Ignition's fixed and adjustable arm options.

FIXED C-ARMS

FIXED C-ARMS
Polished Aluminum

ADJUSTABLE T-ARMS
Black - Height, Depth, Width Adjustments

BASE CONTROL OPTIONS

Seat depth has a 3" range for optimal user comfort and tilt recline to 120° for select models add to Ignition's already impressive control performance.

CENTER TILT
With this popular control, the front of the seat rises to the same degree the back reclines, to support daily office activities.

SYNCHRO-TILT
This enhanced tilt function brings the spine into more natural alignment, and opens the torso to improve leg circulation.

SYNCHRO-TILT WITH BACK ANGLE
Offers the broadest recline range and gives the user maximum control over every aspect of their posture.

BASE OPTIONS

Black and Polished Aluminum base options offer the style you desire and blend seamlessly into any setting.

IGNITION FITS YOUR SPACE

The days of spending all day at your desk are over. Today, every space is designed to support collaboration and needs high-performance seating. Ignition brings a uniform sense of style and functionality to every area within a space. Whether outfitting private offices, community spaces, welcoming areas or anything in between, Ignition can be customized with finish, upholstery and fabric options that make it feel right at home in every space.

F

CAFÉ
This environment requires mobility and flexibility, which makes it perfect for Ignition's café stools.

G

WORKSTATION
Ergonomic task seating makes it easy to focus and increases worker productivity.

H

CONFERENCE
Support your dedicated meeting spaces with luxurious comfort and personalized controls.

EVERYTHING YOU NEED, EVERYWHERE YOU NEED IT

From welcoming and waiting areas to cafés and classrooms, Ignition's got you covered. Ignition fits who you are, where you work, and how you work.
